

AN EYFS HALF DAY OR TWILIGHT SESSION DELIVERED BY KYM SCOTT

Interacting with children in ways which support & extend their self-initiated learning

- * Explore the key elements that lead to high quality interactions which genuinely extend children's thinking, language and learning.
- * Receive a supportive tool to take away, that will enable you to evaluate the quality of day to day practice in this area.
- * See and discuss various video footage of real interactions which exemplify the key points raised.
- * Review the role of questioning in interactions with children and consider what types of questions are most effective.
- * Learn specific strategies for scaffolding children's learning and see how these look in practice.

Available as half day training or as a twilight session

Kym Scott Course Leader

Before becoming an international speaker and consultant, Kym was Early Years Lead in the London Borough of Lewisham. This enabled her to support many schools & settings in a variety

of circumstances & to informally research the key elements that make for excellent outcomes for children. Lewisham has been named as one of the top places in the country for children's development due to how well children in the borough consistently achieve at the end of the EYFS. Kym is frequently praised for her clear, realistic & highly practical advice, & for the impact she makes on the practice of those she works with.
